All Saints *focus*

A very warm welcome to everyone today and
to our Special Events Edition

A Farewell Quiz

The Marsh family have blessed us in very many ways. One of their unique contributions has been with some Quiz nights and so we'd like to invite you to a **farewell Quiz on Saturday 14th September at 7:00pm.**

Bring along your usual nibbles and drinks and let's all have fun celebrating the past 5 years they have spent with us and look forward with them to their exciting adventures that God is calling them to.

Come as a team (upto 6 people) or come on your own and join a team.

Sunday 15th at 10am Service. We will be praying for Craig, Anne-Marie, Tom and Cherish and will be sending them off to Cambridge with our love and blessings. Please join us.

Professor Steve 'Jake' Jacobs is sharing Gods amazing creation with us on **Sunday 8th September** during the 10am service after he makes his way down from being keynote speaker at the Orkney International Science Festival on his way to the Royal Institution London; whether you regularly come to All Saints at 10 o'clock or not, you're very welcome to come along.

He writes to us: *I've been working with the team at the Keck Observatory in Hawaii - the twin laser guided largest on the planet scopes. I got so excited my last visit there they had to put me on oxygen. My Christian friends there, like me, have been rattled to the core as we realized our understanding of the universe has been challenged. Likewise, we are shaking as we reconsider the nature and magnificence of Father Jehovah. Your jaw will drop when you see the photos.*

Early years children and Key Stage 1 will have space related themes in the hall.

Bring & Share Lunch - We know that once you've heard Jake speak, you'll be wanting to ask and to hear - more so after the service, and after our usual refreshments, bring some lunch to share and we'll fill the Rectory and/or garden and keep being amazed and inspired.

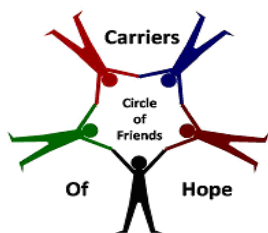

Prof. Steve 'Jake' Jacobs is an accomplished scientist, educator, author, and media personality, with a career built out of making science fun and accessible. The former chief scientist of television's Discovery Channel including MythBusters, Jake has written and presented a series for the Discovery Channel, and also for National Geographic TV and Fox Television where he was the creator and on-air host of the series Jake's Attic.

Harvest

On the 6th October we are holding our harvest service and are delighted that Elfrida Calvocoressi is using her experience with CHIPS and sharing with us thoughts on a harvest of peace.

We will be giving out chocolate and flower posies to local people as in the past few years, more instructions later.

Carriers of Hope

Around **October** All Saints has an extra push on donating items to Carriers of Hope. We don't need you to start stacking things up in church just yet, but you might like to be storing all sorts at home.

Cleaning materials, hygiene items for women and men, nappies are a good place to start. Add a little extra into your shopping, kept at home and we'll let you know when to deluge church.

Many thanks.

Heritage Open Day Sunday 15th September

This year is the 25th Anniversary of the Heritage Open Days; as a key Grade 1 Listed building in the Allesley conservation area, this day is an ideal opportunity to welcome guests to our church at All Saints.

As in previous years, we need a couple of people each hour from 11.00am through to 4.00pm, there is a sheet at the back of church for volunteers to sign up. People sometimes want to chat and discover more about the history others just enjoy sitting in contemplation. Literature and children's information will be available.

Any queries, please ask Michael.

Bob Hartman Saturday 21st September

10:30 for 11:00, finishing at 12:30pm.

How to be a great storyteller is not just for children's workers in churches. Do you know a teacher who could use just a little inspiration at the beginning of a new school year, a mum, dad or grandparent who loves telling stories to the children – invite them along. Or do you think an adult environment doesn't need story telling? Jesus told many stories as he taught, bring a friend and an open attitude.

3:00-4:30pm

Invite every family member you know to come along, the children will be riveted for 35 minutes, then after refreshments they'll be wanting more.

These events are free and open to all, we'd love
