

Future Scenario Exercise

Scenario	<p>It's 2026. All Saints is a thriving worshipping community that has doubled in size. Our worship is vibrant, diverse and creative. Ministries and mid-size groups are thriving and we are serving the community in new ways. New leaders of all ages (lay and ordained) are being identified, trained, resources and released into their calling in every area of kingdom life. New people are coming to faith from a variety of different backgrounds, making a declaration of faith and growing into mature disciples of Jesus who go on to make disciples. We are considered a hub of the community and engaged in every aspect of life in the parish. The church building is valued and appreciated as a sacred, open and accessible space but we are seen as more than a building. We are seen as a community of blessing, a place of wellness and a dynamic, faithful people on fire for Jesus, empowered by the Holy Spirit.</p>
Reflection	<p>How does this dream resonate with you?</p> <p>What could you see that might stop this becoming a reality?</p>
Actions	<p>Looking back, what did you start doing in 2021 or 2022 that prepared the ground for this reality?</p>
